

## The 2024 Water Efficiency & Conservation Symposium Abstract Submission Overview

The Alliance for Water Efficiency team looks forward to hosting the 2<sup>nd</sup> Annual Water Efficiency & Conservation Symposium in Chicago, Illinois, August 6-8, 2024. We invite you to submit an abstract proposal to help us build a rich, diverse program.

We believe learning should be fun and is best advanced through interaction with ideas and people. Symposium sessions will include a combination of facilitated panels, short presentations, and workshops. Each session will also feature an interactive component to create space for audience engagement and two-way learning. You are welcome to submit an idea for an entire session or an idea that can be woven into a session with other presenters who have proposed similar ideas. We encourage you to consider your abstract submission as a jumping-off point that we will collaborate on to create a compelling session that fits into the broader program agenda.

### Submission Timeline

The abstract submission window is open through Friday, January 24, 2024. Click [here](#) to access the online abstract submission portal. The goal is to notify program contributors by March 1, 2024, and to release the Symposium program at the end of May 2024. Please reach out to Program Director Liesel Hans with any questions [liesel@a4we.org](mailto:liesel@a4we.org)

### Core Program Topics
